About

- Engine: The Maxima Z is typically powered by a single-cylinder, four-stroke engine.
- Displacement: The engine displacement varies depending on the specific model, but it is generally around 250cc.
- Transmission: It features a manual transmission for gear shifting.
- Fuel Tank Capacity: The fuel tank capacity is usually around 12-15 liters.
- Mileage: The Maxima Z is known for its fuel efficiency, with an estimated mileage of around 40-45 kilometers per liter.

Some Information

- A bigger, better, and tougher Bajaj three-wheel upgrade was finally acknowledged when Trimotors released the Bajaj Maxima Series in the Philippines last November 2020. Since then, it has gained popularity due to its reliability, fuel efficiency, and versatility. Here are some about it:
